PETER MARTIN'S Patent Improved

Air Furnaces. FOR PUBLIC AND PRIVATE USE.

For Wood or Coal.

THE ATTENTION OF THE PUBLIC is called to the above Furnaces, as they combine ventilating with heating qualities.

The inventor has, after years of experiments, succeeded in perfecting what he claims to be the best Furnaces now in une. Among its many advantages over the ordinary Furnaces, are:

The small amount of Fuel required to keep it in operation.

The small amount of Fuel required to keep it in operation.

Keeping the rooms constantly supplied with pure, freshair, drawn from Nature's inexhaustible stock out of doors.

Large Air Chambers, avoiding the confinement of beat in heated walls and hot metal chambers.

Improved Water Chambers, which keep up a steady supply of moissure, which overcomes the great objection to ordinary Hot Air Furnaces.

The castings are heavy, and strongly bolted together, guaranteeing durability under any degree of heat.

Particular attention is called to the SELF-REGULATING ARRANGEMENT of this Furnaces, which has been pronunced by scientific men to be the BEST EVER MADE.

By Every Furnace warranted to give entire sat-

REFERENCES: By permission I refer to the following parties, where the Furnaces are in operation:

CINCINNATI, March 17, 1863.

Mr. P. Martin, of this city, has constructed a "Hot Air Furnace" in the Second Reformed Church (corner Findlay and Ba miller streets), which has thus far given entire satisfaction. For efficiency in warming, purity of air, and economy of fuel, we can speak of it in most favorable terms. Its permanency and durability also seem to promise well. The plan of draught and ventilation is good.

From our experience, we can recommend Mr. Martin as an adept in the art of warming buildings, and as quite competent to give satisfaction in the construction of Furnaces, wherever practicable.

Mr. Martin:—This is to certify that we tried the Furnace you built for us, and are satisfied with it.
Our rooms are amply heated.
Yours, respectfully, SISTERS OF NOTRE DAME.

I bear testimony to the above, having used the same Furnace all last winter, and am fully satisfied with all its arrangements.
